UBC Tap Handles

Since 1998, UBC Ceramics has helped breweries around the world increase beer sales by making their brands stand out in a bar setting. This is achieved by manufacturing a wide variety of custom and generic tap handle shapes based upon our customers' specific needs and wants. Initially starting out as a ceramic beer tower manufacturer, we have quickly progressed into one of the world's most dynamic tap handle design and production companies. Our ceramic tap handles are produced in Ukraine using environmentally friendly materials and technologies originally developed in Germany by ceramic beer stein manufacturers. With any tap handle purchase, UBC Ceramics will provide complimentary custom design and development assistance. Our specialized team will work with you to come up with interesting designs, and we offer 3D images before initial samples are created. We look forward to working with you on your next tap handle project!

The UBC Team
